

Join us for a presentation from
the Mid-America Transplant
Foundation

Monday, August 12 @ 6pm

Presenter: Dave Kneib, Mid-America Transplant
Volunteer, Organ/Tissue Donation Education

Today, 115,000 people are waiting for a lifesaving
transplant. You can inspire hope for these patients and
their families by signing up for the organ and tissue
donor registry.

- Every 10 minutes, another person is added to the
waiting list.
- Each day, 22 people die while waiting for a
transplant.
- More than 75 lives can be saved and healed by one
donor.

**Learn more about how the organ/tissue donation
process works and how you can be a hero!**

Sign up on the bulletin board to attend.
