

Hand-Building Jars with Molly of Boda Clay

In this class we will use the slab-building method to create small, lidded, storage jars. Add your own personal touch by using stamps to create texture and pattern on the jars!

No prior experience with clay is necessary, but certainly a bonus! If you'd like to bring your own stamps, organic materials, wood, plant matter, even shells, work great!

Molly will glaze and fire pieces for you. This process takes 5-6 weeks. We'll email you when your project is ready for pick up from the clubhouse.

Monday, June 23rd from 1-4pm

Please feel free to bring a light snack or beverage to enjoy during class. This workshop is \$75. [REGISTER](#) by 06/18. Open to adult friends/family.

Molly is an experienced production potter who has made and sold pottery for nine years. Hand-Building pieces is a fun practice, allowing her to treat ceramics like a hobby, as well as a job! Learn more [HERE](#).
