F. ARCHITECTURAL REVIEW COMMITTEE

1. Introduction

In accordance with the Declaration, an Architectural Review Committee (ARC) has been established, the purpose of which is to strive to maintain harmony in and the aesthetics of the

Heritage of Hawk Ridge Rules and Regulations

community. As such, the ARC is responsible for monitoring and regulating the external appearance and use of the property and enforcing the provisions of the Rules and Regulations & the Declaration. As part of this responsibility, the ARC monitors design changes, modifications or improvements, and landscaping. The ARC, with approval of the Board, is to preserve the interests of the community by establishing and implementing standards and criteria for that purpose.

No resident, homeowner, occupant, or group thereof shall build, plant, or maintain any matter of thing (including, without limitation, any addition, alteration or improvement to any home) upon, in, over, or under, the property including common ground, without the written consent of the ARC, except as later provided herein.

2. Application Process

An application process has been established by which a member can request approval for proposed changes to their home site or the exterior of their home. The application form is available at the Club House and on the Heritage of Hawk Ridge website under Forms.

Completed forms may be submitted in person to the Club House office or by email to the Property Manager. The member will receive written notification of approval or rejection of the application once the ARC completes the review. If the Association and/or ARC fails to approve or disapprove such proposed improvements within thirty (30) days after complete plan and specifications have been received, the improvements will be deemed approved. ANY CHANGES AND MODIFICATIONS TO ORIGINAL REQUEST REQUIRE THE EXPRESSED WRITTEN APPROVAL OF THE ARC.

It is the responsibility of each member to familiarize themselves with the content of the HHR Rules and Regulations, which are in effect at the time of application and also any City of Lake Saint Louis regulations that may apply.

3. Common Area

The homeowner must submit an application for any architectural change to the ARC at the Club House office as provided above.

The ARC reserves the right to disapprove any application item that is not provided for in these Rules and Regulations.

Any change or modification requires written approval of the ARC, even if the identical change or modification has been approved and/or installed elsewhere in the community. Each application is considered independent of another.

The burden rests with the applicant to demonstrate the acceptability of the proposed change. Any information deemed pertinent and supportive of the application, or which may be required by the

Heritage of Hawk Ridge Rules and Regulations

Association or Lake Saint Louis, should be included in the application.

5. Architectural Changes

Residents or homeowners shall not have the right to change the appearance of any portion of the exterior of their home without written approval from the ARC.

Approval by the ARC for any changes, additions or alterations does not preclude the need of residents to apply for any required building permit, etc., from the City of Lake Saint Louis. A copy of any such required permit must be provided to the Association prior to any work being done.

The homeowner will be held liable for any damage caused to cable service or utility lines resulting from landscaping or exterior modifications. It is the responsibility of the homeowner to locate all utilities. Missouri law requires that you notify Missouri One Call System. Call 8-1-1 or 1-800-DIG-RITE (344-7483).

Each homeowner is advised that any alteration/addition, including landscaping that affects the grading and drainage pattern of the home site, will void the warranties, if any, relative to grading and drainage.

8. Feeding Deer (8/25/2026)

Heritage of Hawk Ridge Rules and Regulations

Feeding deer is strongly discouraged because it can result in property damage and public safety hazards. Fed deer will linger in the neighborhood, leading to severe damage to residential plants and gardens, as well as golf course greens. Deer accustomed to being fed lose their natural wariness of humans, which can lead to aggressive behavior. Bringing deer into residential areas directly increases the risk of deer-vehicle collisions and may attract larger predators such as coyotes or stray dogs.
